THE GOZO BUSINESS CHAMBER

The world's local bank

As part of its Internationalisation calendar for 2010, Malta Enterprise will be organising a Business Delegation to the USA between the 12 and 20 June 2010.

The US has the largest and most technologically powerful economy in the world, with a GDP per capita of \$46,900. In this market-oriented economy, private individuals and business firms make most of the decisions, and the federal and state governments buy needed goods and services predominantly in the private marketplace. The US economy is integrated and largely self-contained, with every major industry represented.

In preparation for this mission, Malta Enterprise will be organising a roundtable meeting to discuss and create awareness about the business opportunities in the USA for joint ventures, technology transfer, licensing and franchising, exports, trading and attracting investments to Malta.

Maltese companies interested in forming part of this business mission are kindly invited to attend this meeting.

Date: Wednesday 24th February 2010
Registration: 12:30 hrs
Time: 13:00 - 15:00 hrs
