## 2. Definitions

For the purposes of these Incentive Guidelines, the following definitions shall apply:

### **Assisted Areas**

'Assisted areas' means areas designated in a regional aid map that has been approved in application of Article 107(3),(c) of the Treaty and is in force at the time of the award of the aid and as detailed in Annex A of these incentive guidelines.

### **Completion of the investment**

'Completion of the investment' means the moment when the investment is considered by national authorities as completed, and is identified by the date when all costs have been incurred and any plant and machinery commissioned. Unless otherwise approved this is expected to occur within 3 years from the date of approval of the aid.

### **Employment directly created by an investment project**

'Employment directly created by an investment project' means employment concerning the activity to which the investment relates, including employment created following an increase in the utilisation rate of the capacity created by the investment.

### **Financial Institution**

For the scope of this incentive, a 'financial institution' is understood to be a commercial bank or other financial institution licensed to provide loans to businesses in Malta.

### **Gross grant equivalent**

'Gross grant equivalent' means the amount of the aid if it had been provided in the form of a grant to the beneficiary, before any deduction of tax or other charge.

### **Initial investment**

'Initial investment' means:

- a) an investment in tangible and intangible assets related to one or more of the following:
  - i. the setting-up of a new establishment;
  - ii. the extension of the capacity of an existing establishment;
  - iii. the diversification of the output of an establishment into products or services not previously produced in the establishment; or
  - iv. a fundamental change in the overall production process of the product(s) or the overall provision of the service(s) concerned by the investment in the establishment;
- b) an acquisition of assets belonging to an establishment that has closed or would have closed had it not been purchased. The sole acquisition of the shares of an undertaking does not qualify as initial investment.

A replacement investment thus does not constitute an initial investment.

### **Initial investment that creates new economic activity**

'Initial investment that creates new economic activity' means:

- a) an investment in tangible and intangible assets related to one or both of the following:
  - i. the setting up of a new establishment;

- b) the acquisition of assets belonging to an establishment that has closed or would have closed had it not been purchased, provided that the new activity is not the same or a similar activity than the one carried out in the establishment before the acquisition;  
Sole acquisition of the shares of an undertaking does not qualify as initial investment that creates a new economic activity;

### **Large enterprises**

'Large enterprises' means undertakings not fulfilling the criteria laid down in Annex I of the General Block Exemption Regulation.

### **Net increase in the number of employees**

'Net increase in the number of employees' means a net increase in the number of employees in the establishment concerned compared to the average over a given period in time, after deducting from the number of jobs created any job losses during that period. The number of persons employed full-time, part-time and seasonal has to be considered with their annual labour unit fractions;

### **Relocation**

'Relocation' means a transfer of the same or similar activity or part thereof from an establishment in one contracting party to the EEA Agreement (initial establishment) to the establishment in which the aided investment takes place in another contracting party to the EEA Agreement (aided establishment). There is a transfer of the product or service in the initial, and the aided establishment serves at least partly the same purposes and meets the demands or needs of the same type of customers, and jobs are lost in the same or similar activity in one of the initial establishments of the beneficiary in the EEA.

### **Same or a similar activity**

'Same or a similar activity' means an activity in the same class (four-digit numerical code) of the NACE Rev. 2 statistical classification of economic activities (NACE Rev. 2).

### **Small and Medium Sized Enterprises (SMEs) (Small Undertaking and Medium-Sized Undertaking)**

'Small and Medium Sized Enterprises' or SMEs means undertakings fulfilling the criteria laid down in Annex I of the General Block Exemption Regulation.

### **Start of Works**

'Start of Works' means the earlier of either the start of construction works relating to the investment, or the first legally binding commitment to order equipment or any other commitment that makes the investment irreversible.

Buying land and preparatory works such as obtaining permits and conducting feasibility studies are not considered 'Start of Works'.

For take-overs, 'Start of Works' means the moment of acquiring the assets directly linked to the acquired establishment.

### **Undertaking in Difficulty**

'Undertaking in Difficulty' means an undertaking in respect of which at least one of the following circumstances occurs:

- a) In the case of a limited liability company (other than an SME that has been in existence for less than 3 years), where more than half of its subscribed share capital has disappeared as a result of accumulated losses. This is the case when deduction of accumulated losses from reserves (and all other elements generally considered as part of the own funds of the company) leads to a negative cumulative amount that exceeds half of the subscribed share capital. For the purposes of this provision, 'limited liability company' refers in particular to the types of company mentioned in Annex I to Directive 2013/34/EU of the European Parliament and of the Council<sup>1</sup> and 'share capital' includes, where relevant, any share premium.
- b) In the case of a company where at least some of its members have unlimited liability for the debt of the company (other than an SME that has been in existence for less than 3 years), where more than half of its capital as shown in the company accounts has disappeared as a result of accumulated losses. For the purposes of this provision, 'a company where at least some of its members have unlimited liability for the debt of the company' refers in particular to the types of company mentioned in Annex II to Directive 2013/34/EU.
- c) Where the undertaking is subject to collective insolvency proceedings or fulfils the criteria under its domestic law for being placed in collective insolvency proceedings at the request of its creditors.
- d) Where the undertaking has received rescue aid and has not yet reimbursed the loan or terminated the guarantee, or has received restructuring aid and is still subject to a restructuring plan.
- e) In the case of an undertaking that is not an SME, where, for the past two (2) years:

## 3.2 Eligible Undertakings

3.2.1 Eligible undertakings are small and medium-sized enterprises in terms of Annex I of the General Block Exemption Regulation, as well as large enterprises. Loan Guarantees may only be awarded to small and medium-sized enterprises.

3.2.2 To be eligible for aid through this incentive, an undertaking must operate from Malta and be incorporated in the European Union as a partnership en nom collectif, en commandite or a limited liability company, co-operative or similar set-up. To benefit from a tax credit,

partnerships are required to register under Article 27(6) of the ITMA to be treated as a company.

- 3.2.3 The Corporation shall refuse applications from undertakings that have dues in relation to VAT, Income Tax, and Social Security payments that in total exceed €1,000, unless the applicant has a repayment agreement to settle any dues that is being honoured. The Corporation may, at its discretion, accept applications from undertakings that have dues in relation to VAT, Income Tax, and Social Security payments, of up to €1,000, after considering the reasons for these dues as provided by the applicant and on the condition that the applicant commits to regularise these dues within an established timeframe.
- 3.2.4 The Undertaking must not be an 'Undertaking in Difficulty'. However, this scheme shall apply by derogation to undertakings which were not in difficulty on 31 December 2019 but became undertakings in difficulty in the period between 1 January 2020 to 31 December 2021.
- 3.2.5 The undertaking must not have carried out a relocation to the establishment in which the initial investment for which aid is requested is to take place, in the two (2) years preceding the application for aid and must commit that it will not carry out a relocation up to a period of two (2) years after the initial investment for which aid is requested, is completed.

- 3.2.7 Support shall not be provided to any undertaking that is engaged or plans to be engaged in an activity related to gambling (thus requiring a licence from the Malta Gaming Authority) or the provision of financial services (thus requiring a licence from the Malta Financial Services Authority).

### **3.3 Eligible Projects**

- 3.3.1 Support may only be awarded in respect of eligible investment projects commencing on or after 1st January 2024 and by 31st December 2027 or later if the Start of Works was delayed due to factors outside the control of the beneficiary as shall be determined by the Corporation, as long as the beneficiary submits an application for assistance, and the aid in respect of such projects is approved by the Corporation during the validity period of the scheme which in no case shall be later than 31 December 2026.
- 3.3.2 Eligible investment projects having a start of works prior to the submission of an Application to the Corporation may only be awarded aid in the form of tax credits. Applicants requesting cash grants should await approval from the Corporation prior to the Start of Works. Applicants may at the discretion of the Corporation be allowed to commence prior to receiving the formal approval at the applicant's own risk.
- 3.3.3 Support may be granted to SMEs for any form of initial investment and to Large Enterprises only for an initial investment that creates a new economic activity in the area concerned.
- a) For aid awarded to Large Enterprises or SMEs for a diversification of an existing establishment, the eligible costs shall exceed by at least 200 % the book value of the reused assets, as registered in the fiscal year preceding the start of works.
  - b) For the acquisition of assets belonging to an establishment that has closed or would have closed had it not been purchased, in principle only the costs of buying the assets from third parties unrelated to the buyer shall be taken into consideration. However, if a member of the family of the original owner, or one or more employees, takes over a small enterprise, the condition that the assets shall be bought from third parties unrelated to the buyer does not apply. The transaction shall take place under market conditions. If the acquisition of the assets of an

establishment is accompanied by an additional investment eligible for regional aid, the eligible costs of that additional investment should be added to the cost of acquisition of the assets of the establishment. If aid has already been granted for the acquisition of assets prior to their purchase, the costs of those assets shall be deducted from the eligible costs related to the acquisition of an establishment. The sole acquisition of the shares of an undertaking does not qualify as initial investment.

- 3.3.4 The investment and resultant Economic Activity shall be maintained in the recipient area for at least five (5) years, or at least three (3) years in the case of SMEs, after completion of the investment. This shall not prevent the replacement of plant or equipment that has become outdated or broken within this period, provided that the economic activity is retained in the area concerned for the relevant minimum period.
- 3.3.5 The aid beneficiary shall provide a financial contribution of at least twenty-five percent (25%) of the eligible costs through its own resources or by external financing, in a form which is free of any public support.
- 3.3.6 Aid for energy generation (including energy generated from renewable sources), storage, transmission, distribution and infrastructure, shall not be granted.

## 4. The Incentive

### 4.1 Benefits that may be awarded under this measure

- 4.1.1 The Aid provided under these Incentive Guidelines may be awarded as Tax Credits, Cash Grant, Subsidies on loan interest, Loan Guarantees or a combination of any of these forms of aid. The total aid (value of aid) awarded cannot exceed the maximum support limits established in these Guidelines.

### 4.2 Tax Credits

- 4.2.1 Fiscal aid under this measure is non-discretionary and shall be awarded to any initial investment project that meets the eligibility criteria.
- 4.2.2 Any tax credits awarded may only be utilised by the beneficiary as long as the activity supported is still being carried out in the establishment. The Corporation shall annually provide the beneficiary with a statement of any tax credit balance until all allocated tax credits are utilised.
- 4.2.3 The Corporation shall issue a tax credit certificate following the presentation of documentation by the Beneficiary confirming that the eligible costs have been incurred. Tax Credits may only be claimed in the Beneficiary's tax return on presentation of this certificate.
- 4.2.4 Any Tax Credits awarded under this incentive shall not give rise to a right of any tax refund.
- 4.2.5 Any Tax Credits not utilised shall be carried forward to following year of assessment and shall be adjusted with the reference rate applicable at the time. The process of carrying forward tax credits shall be repeated until they are utilised.
- 4.2.6 No Tax Credit shall be due to an undertaking for a year of assessment unless it is claimed by the beneficiary using the appropriate provisions as established at the time by the Corporation and the Revenue Department.

### 4.3 Cash Grants

- 4.3.1 A cash grant may be awarded in respect of initial investment projects following an evaluation of the project and its economic impact.
- 4.3.2 Any such grant must be approved in writing by Malta Enterprise before the Start of Works and during the validity of the scheme.
- 4.3.3 To be awarded a cash grant, applicants will need to demonstrate access to personal and private funds and explain how the shortfall between the funding awarded and the cost for implementing the project successfully will be covered.

### 4.4 Loan Interest Rate Subsidy

- 4.4.1 The Corporation may support eligible initial investment projects with an Interest Rate Subsidy that shall not exceed three percent (3%) per annum. In any case, the effective interest rate which should be paid by the beneficiary must not be less than 1%. Irrespective of the term of the loan, the subsidy shall only be available up to the tenth (10<sup>th</sup>) year from the date of the initial drawdown.
- 4.4.2 The Corporation shall establish a maximum annual subsidy in its approval.
- 4.4.3 The Beneficiary shall be required to provide details of a specific loan account with a Financial Institution which shall be used exclusively to pay all eligible costs related to the supported investment project. The Corporation shall only consider eligible payments made directly from this loan account.

4.4.4 The Gross Grant Equivalent of any interest rate subsidy shall be calculated at the net present value of future subsidies using the discount rate established in relation to the **Base Rates** calculated in accordance with the Communication from the Commission on the revision of the method for setting the reference and discount rates (OJ C 14, 19.01.2008, p.6.). For establishing the value of aid the following formula shall be adopted:

$$\text{Value of aid} = \sum_{i=0}^n \frac{(\text{Value of Subsidy})_i}{(1+(\text{Reference Rate} + 100 \text{ basis points}))^i}$$

Where: n is the number of repayment period covered by the subsidy.

## 4.5 Loan Guarantees for SMEs

4.5.1 An Eligible Undertaking which must qualify as a Small or Medium-sized enterprise may be supported through a guarantee to be used against a bank loan required for:

- a) the setting-up of a new establishment; or
- b) the extension of the capacity of an existing establishment.

4.5.2 The guarantee shall not exceed sixteen million and five hundred thousand euro (€16,500,000) and shall be reduced annually in accordance with the repayment schedule specified in the loan agreement. At no instance shall the guarantee cover more than 80% of the supported loan.

4.5.3 The value of aid shall be calculated by establishing the current value (using the applicable reference rate) of the guarantee premium which would have had to be paid on the annual outstanding amounts of the loan as scheduled. The premium shall be established by reference to the safe harbour premiums established by *Commission Notice on the application of Articles 87 and 88 of the EC Treaty to State aid in the form of guarantees - Official Journal C 155 of 20.06.2008, page 10*. For undertakings that do not have a credit history or rating based on a balance sheet approach, the safe-harbour premium shall be set at 3.8%. Any guarantee premium can never be lower than the premium which would be applicable to the parent company or companies.

## 4.6 Maximum Support

4.6.1 The value of aid (calculated as the gross grant equivalent) shall be adjusted to ensure that the total amount of aid for a given investment project shall not exceed the maximum intensities established in the table below:

Size of Applicant (Activity)	Investment project in an assisted area identified in Annex A	Investment project in Gozo and Comino	Investment project in other areas
Small undertaking excluding hospitality sector	30%	35%	20%
Medium-sized undertaking excluding hospitality sector	20%	25%	10%
Large undertaking	10%	15%	Not Eligible for Support
Small and Medium Sized Enterprises (SMEs) operating in hospitality sector	15%	15%	10%

4.6.2 For 'Large Investment Projects', meaning initial investment projects with value of eligible costs exceeding EUR 50 million (calculated at prices and exchange rates on the date of

granting the aid), the adjusted aid amount, i.e. the applicable maximum permissible aid, shall be adjusted according to the following formula:

$$\text{Maximum aid amount} = R \times (A + 0.50 \times B + 0 \times C)$$

Where: R is the maximum aid intensity applicable in the area concerned, excluding the increased aid intensity for SMEs;

A is the part of eligible costs equal to EUR 55 million;

B is the part of eligible costs between EUR 55 million and EUR 110 million;  
and

C is the part of eligible costs above EUR 110 million.

Furthermore, the notification thresholds outlined in Article 4(1) (a) and (c) of the General Block Exemption Regulation must not be exceeded. Such thresholds will not be circumvented by artificially splitting up the investment projects.

4.6.4 Any initial investment related to the same or a similar activity started by the same beneficiary (at group level) within a period of 3 years from the date of start of works on another aided investment in the same level 3 region of the Nomenclature of Territorial Units for Statistics shall be considered to be part of a single investment project. Where such single investment project is a large investment project, the total aid amount for the single investment project shall not exceed the adjusted aid amount for large investment projects.

## 5. Eligible Project Expenditure

- 5.0.1 Eligible project expenditure shall be the acquisition of Qualifying Tangible and Intangible Assets required for the implementation of an eligible Initial Investment Project, or the wage costs arising from job creation as a result of an initial investment project (or estimated wage costs of employment directly created by the investment project in those areas not listed in Annex A) calculated over a period of two years.
- 5.0.2 Any taxes (such as Value Add Tax) or Government induced charges (such as customs charges and vehicle registration costs) shall not be considered to be part of the eligible expense related to the asset.
- 5.0.3 Costs related to services incidental to the procurement of the asset (such as shipping, installation and commissioning) shall be considered as an integral part of the eligible cost if this is allowed within the applicable accounting standards and evidence is provided that such costs are directly related to the investment project.
- 5.0.4 Eligible Project Expenditure financed through a Loan covered by an interest rate subsidy, or a guarantee shall be limited to tangible assets which may consist solely of construction and/or modification of buildings, plant, machinery, and equipment required for the initial investment project. All costs must be incurred within 36 months from the first draw down.

### 5.1 Tangible Assets

- 5.1.1 For the purpose of this incentive, 'Tangible Assets' means assets consisting of land, buildings (including fittings and furnishings), plant, machinery and equipment.

  - b) for the acquisition of an establishment.
- 5.1.3 Only the procurement of assets required for the implementation of the initial investment project required for carrying out of the qualifying economic activity may be supported.
- 5.1.4 The acquisition of works of art, antiques, collectables and similar items shall be considered ineligible.
- 5.1.5 With the exception of plant or equipment which has become broken or outdated due to rapid technological change, the tangible assets must be kept by the undertaking for at least five (5) years or three (3) years in the case of SMEs, after completion of the investment. In any case the underlying economic activity shall be retained in the recipient area for the minimum period of at least five (5) years or three (3) years in the case where the beneficiary is an SME.

### 5.2 Tangible Assets: Motor Vehicles

- 5.2.1 The costs for the acquisition of motor vehicles shall be considered only in respect of vehicles that are new. The Corporation may limit support to clean vehicles or zero-emission vehicles.

### **5.3 Tangible Assets: Lease of tangible assets (plant or machinery)**

5.3.1 Costs related to the lease of tangible assets (plant or machinery) may be taken into account if the lease agreement contains an obligation for the beneficiary of the aid to purchase the asset upon expiry of the term of the lease. In such cases, the lease must take the form of financial leasing.

### **5.4 Tangible Assets: Land and buildings**

5.4.1 Costs for the procurement or lease of land, buildings and immovable structures shall be considered eligible in adherence to the following parameters:

- b) Costs related to the lease of land and buildings shall be considered as eligible if the lease covers a period of at least five (5) years after the expected date of completion of the investment project for large undertakings or at least three (3) years in the case of SMEs. Only new lease agreements required for an initial investment or an initial investment that creates a new economic activity shall be considered eligible.
